

## Fond du Lac School District Employee Clinic

This list of services is only a partial list of Family Nurse Practitioner offerings.  
Our Family Nurse Practitioner is capable of performing many other services.

**210 Wisconsin American Drive, Fond du Lac, WI 54937**

**920-907-7025**

### **Nurse Practitioner Scope of Care**

- Provide primary and preventive medical care
- Diagnose and treat illnesses
- Prescriptive authority
- Focus on health promotion and wellness
- Partner with you to manage chronic illnesses (non-insulin dependent diabetes, asthma, cholesterol, etc.)
- Order, perform and interpret diagnostic studies such as lab work and X-ray (X-rays not performed at clinic. If ordered, will bill to primary insurance)

### **Health Promotion and Wellness**

- Comprehensive Health Risk Assessment (HRA)
- Results shared with you via coach and/or nurse practitioner
- A plan for wellness coordinated, at your request, by the nurse practitioner

### **Patient Education**

- Partnership with nurse practitioner
- Results of HRA could trigger need to provide additional education
- Health prevention and promotion
- Education before, during and after appointment with nurse practitioner

### **Disease/Case Management**

- Identify high risk employees through HRA
- Develop plan based on individual results
- Ongoing monitoring

### **Services Not Performed by the Nurse Practitioner**

- Specialty care – management of chronic pain, insulin therapy, eye and hearing exams
- Procedures – excision of moles or skin lesions, suturing
- Emergency care – acute chest/abdominal pain, anaphylactic reactions, difficulty breathing, etc.
